

SPR-Asia Group

Free

The First Online Seminar

April 29, 2023

9:30–11:00 IST / 12:00–13:30 HKT / 13:00–14:30 JST

The Society for Psychotherapy Research is an international, multidisciplinary scientific association devoted to research on psychotherapy. SPR encourages the development of research on psychotherapy as well as aims to support and enhance both the empirical basis and applied value of research on psychotherapy.

We are launching the SPR Asia Regional Affiliate Group. This is our first meeting. Please be a part of this historic moment! Researchers in clinical and counselling psychology, practitioners, and students are all welcomed to join. It is free of charge and we would like you to get connected with other researchers and practitioners in Asian countries! You do not have to be a SPR member to join. The meeting will be in English.

The seminar will focus on

- Psychotherapy training and supervision in Asia
- Students' perspective on how psychotherapy research informs their practice
- Introduction of psychotherapy research in the Asian context and the SPR-Asia group

Welcome to

- Any psychotherapy practitioner, researcher, or student currently residing in a country/region in Asia
- Those in other geographic areas can join as well (they may be interested in connecting with Asian therapists for research)
